This is our 7th summer putting on this camp (it is the most fun program for our players and coaching staff we provide). We have made some changes this summer including: adding an hour to the camp days, and lowering the ages to just K-6th. By doing this, we feel we will be more successful due to teaching fundamental skills to the campers earlier on, and by giving the campers our entire and undivided attention. Our basketball programs have been successful the past few seasons and we feel as if this camp is one of the main reasons why! We would LOVE to get 80+ campers this summer camp to not only teach them the skills of basketball; but also how important the classroom is, discipline, respect, and how to have JACKET PRIDE! Please help us in reaching this goal by spreading the word for the most successful Kids Camp in the parish! We greatly appreciate it!
